A note from our Sale Manager

As all of you know that are reading this dispersal sale catalog, it takes a lot of time and dedication to make a meaningful contribution to raising purebred cattle. Tom & Sandy Sonderup have made that meaningful contribution. In the history of the Charolais breed their name Sonderup Charolais Ranch, Inc. and SCR cattle have become an integral part of the breed!

The mature cow herds of both Funk Charolais & Triple K Charolais have been sold to the Terrill & Sarah Strnad family, Formoso, Kansas along with Dale Funk's pasture holdings near the Strnad's ranch. Therefore, only the Funk bred and open heifers will be a part of this dispersal. It was good to see this aggressive Charolais family get this awesome set of brood cows to build on their T & S Strnad Charolais herd. Both the Funk and Triple K herds were built around the Sonderup genetics for many years!

All of the Sonderup Charolais Ranch, Inc. bred cows, bred heifers herd sires and open heifer calves sell. You are getting them all, nothing but some embryos and semen remain.

I had managed 20 sales for them over the years and when Tom called to see if I could help them one more time, I could not refuse. If there is anything that I can assist you with making plans for attending this sale, please don't hesitate to call upon me. We all look forward to seeing you sale day.

Greg Hubert

Greg Hubert, PO Box 100, Oakley, KS 67748, 785-672-7449 cell

To our friends, family, customers, and partners,

With great regret and good health, we have decided to decrease our workload and disperse our cowherd. We plan to spend more time with family and catch up on our fishing!

Dad bought our first Charolais in 1962 from a small breeder in Southeast Nebraska. He loaded Mom and all the kids in the ½ ton pickup and headed for Beatrice. To load him, we put up the old stockrack and jumped him in. He was very quiet, but his head was over the stock rack. So we put a rope over the rack and down to the front to keep him safe! Every time he moved, the pickup rocked. Mother was a wreck when we got home!

I showed the first Charolais-cross steer at the Nance County Fair in 1965. He was Grand Champion, won Average Daily Gain and the Carcass contest. I was hooked! In high school, I leased the Tri-R herd. After high school, we purchased 100 females from Bauman Ranch. We started showing pen bulls in Denver in 1976. We had our first bull sale in 1982.

The main difference at SCR is the use of the Redman Linear Measurement System. It stresses growth, feed efficiency, red meat yield, and reproductive efficiency. In the 1980s, it was used by a number of breeders in 8 breeds of national prominence for production cattle. In the 90s, we started using the Stouffer Ultrasound program from Cornell that measures the cells where marbling is deposited to select cattle with high marbling and large REA. We used our best bulls back in the herd for generations and still do today.

We have sent several bulls to Canada that have been quite profitable for their owners. So, that is why we have added Canadian genetics to the mix. Casanova crosses very well with our herd, and now our Summit bull has also moved us forward with the current calf crop. I'm very excited to see how they will impact the breed in the future.

We will not be totally absent from the breed, as we will continue to host our 41st Annual Spring Bull Sale with our cooperators for the foreseeable future. We also could have a cooperator female sale next fall.

Sandy and Tom would like to say thank you to all the friends our family have made around the world through Charolais cattle. Whether at the Denver Stock Show, Junior Nationals, or Charolais events across the state, you never know what old retired people might drive in, wanting to look at some Charolais cattle.

I know if you have need for cattle bred for "Profitable Traits" we will see you on November 10. Our catalogs will be out the first part of October, and videos to follow before November 1st.

Thank you,

Tom & Sandy Sonderup

Trucking

All cattle must be removed from the sale facility by 5 pm on Friday, unless other arrangements have been made with Tom.

Herd Health

All cattle will be accompanied by proper interstate health certificates.

Supplement Information

All additional and updated information will be printed and available to all prospective buyers upon arrival or on the internet. There will be a penning chart as to where all lots are located around the sale facility.

Breeding Guarantee

All females sold as "safe in calf" will be guaranteed to be pregnant as stated. The buyer will have 30 days from sale date to verify that status by a licensed veterinarian. If any female sold as "safe in calf" is found to not be pregnant as stated, if in a healthy condition, may be returned to the seller at the buyer's expense. After verification has been made that she is open, a full refund will be made. All open heifer calves are considered to be reproductively sound. Because this is a final dispersal, there is no further guarantee. All herd sires have been used this past summer breeding season and are considered reproductively sound.

Selling Full Interest and Full Possession.

When you see the first 2022 born calves sired by Summit at this sale you will immediately recognize that he is doing everything right!

Summit was purchased out of Canada for \$32,000 Canadian funds so about \$25,000 U.S. dollars by a large group of breeders from Nebraska including Dale Funk, Triple K, Eickhoff Farms, Independent Foundation and Sonderup Charolais Ranch, Inc.

We bought Summit 1H because he hit the benchmarks we look for in a herd sire. His 82 lb birthweight with 1142 lb weaning weight and 1532 yearling weight means 1H had the spread in birth weight and growth we try to achieve. 1H had great EPDs in Canada BW -0.9, WW 56, YW 101, Milk 21. He had an internationally known pedigree that was outcross for us, but sought after worldwide. Lastly, but not least, he has the look and correctness any cowman can appreciate.

Only to settle this partnership does the entire bull sell and full possession. Summit's sire WCR Commissioner 593 sold for \$50,000 in the 2016 Wienk Charolais Ranch Bull Sale to three Canadian breeders. His dam is sired by the \$125,000 WC Milestone 5223 during the Wright Charolais Bull Sale.

Selling Full Interest and Full Possession. You will not find this many young 2020 born herd sires selling this year and here is another one that has done the job. This calving-ease herd sire was purchased out of the Wild Indian Acres Bull Sale this past spring for \$8,500. His 66 lbs. Birthweight, CE EPD of 11.5 and BW EPD of -2.4 sealed the decision to bring him to Nebraska for Chanc McIntosh, Eickhoff Farms and the Sonderups. But he is just not only a calving-ease herd sire, his AWW was 745 lbs. to ratio 113 and his AYW was 1,492 lbs. to ratio 119. Here is one to put in the pasture and sleep easy!
