INTRODUCTORY.

IN presenting our new CITY AND BUSINESS DIRECTORY to the citizens of Ithaca, we feel justified in saying that it is the most correct and complete work of the kind ever gotten up in this place. No pains have been spared to make it not only valuable as a general Directory, but also as a book of reference of local matters pertaining to Ithaca. The work has been somewhat delayed in its publication, owing to circumstances over which we had no control; but we trust the fine book which we present you will more than compensate for the short delay.

We take pleasure in calling the attention of the public to the fine Map which accompanies our new Directory. Every street and block in the city is shown at a glance, and all public buildings, manufactories, &c., are numbered, and the corresponding numbers are referred to on the margin. The circles shown give the distances from Firemen's Hall, a central point, commencing with a quarter mile circle and ending with a mile and a quarter. The election wards of the Town of Ithaca, five in number, are also designated by different colored lines, which we trust will prove valuable to our political friends in the present presidential canvass.

As far as possible we have given the names and present residence of those who have moved from Ithaca during the past year; also an alphabetical list of the different streets of the city, giving their location.

As a matter of course there never has been, nor never can be, a *perfect* directory printed; but we are satisfied that the present issue comes nearer to perfection than any one ever before issued in this place.

We thank our friends for their patronage, and trust that our work may prove useful and valuable to them.

Respectfully,

NORTON & CONKLIN,

Publishers.
