ON THE COVER

If your model railroad has track projects big or small planned this year, check out the Biggest Track Sale of the Year starting on page 11, and read more about the latest HO Scale Walthers Sperry cars on page 9.

An Unexpected Lineside Industry

Where do you go when you want a private rail car or work done on the car you own? Railcar Restoration and Charter! This unusual business takes in private cars via the local freight line and restores them to their previous luster for the lucky owners. In addition, they offer their own charter cars that are fully Amtrak and VIA compatible so can be seen in service across North America.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS. The 'Find It' feature on our website will help you find a Dealer in your area that may still have stock available for the item you desire.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

For 80 years, Walthers has been committed to the fine tradition of model railroading.

The annual Walthers Reference Book is a 'must have' for model railroaders – those with years of experience as well as those just getting started.

It is a usable, collectible resource.

Don't just take our word for it...

"For most any model railroad project I work on, I turn to one of the Walthers Reference Books. Walthers Reference Books have been an important resource for me, especially when planning modeling projects.

While the Internet is a great tool for finding information, it works best if you already know what you are looking for. With the printed Reference Book, you can easily browse selections of products, which can be great for generating ideas. Many times over the years I've started looking for one thing, only to find something better just a few pages away, which ultimately makes a better finished model. The Reference Books are a great modeling tool."
